Non-Residential Category

The non-residential category includes all Developed Parcels in the District which are not zoned by the City for Residential Uses ("Non-Residential Category").

- The Maximum Special Tax that may be levied within Special Tax Area A for the Fiscal Year 1998/99 on each Developed Parcel assigned to the Non-Residential Category shall be \$1,143 per Acre (said amount to be levied pro rata for any portion of an Acre).

Metropolitan Area All Urban Consumer Price Index (All Items) or the annual percentage change in the estimated California Fourth Quarter Per Capita Personal Income as contained in the Governor's budget published every January.

TABLE 1

Assignment to Categories of Special Taxes

On or about July 1 of each year (but in any event in sufficient time to include the levy of the Special Taxes on the County's secured tax roll) the City shall assign each Parcel within the District to the Residential Category, Non-Residential Category, Exempt Category, or Vacant Land Category. Parcels subject to levy shall be determined based upon the records of the San Diego County Assessor.

Levy and Apportionment of Special Taxes

The City shall determine the Special Tax Liability of each Special Tax Area in each Fiscal Year on or about every July 1 (but in any event in sufficient time to include the levy of the Special Taxes on the County's secured tax roll). Special Taxes shall then be levied on each Parcel assigned to the Residential Category, Non-Residential Category, and Vacant Land Category within each Special Tax Area in the following order of priority:

- Step 1: Determine the maximum revenue which could be generated in each Special Tax Area by multiplying the total Building Square Footage of all Developed Parcels assigned to the Residential Category in each Special Tax Area by the Maximum Special Tax per Building Square Foot and adding to that the maximum Special Tax revenue which could be generated by multiplying the total Acreage of all Developed Parcels assigned to the Non-Residential Category in each Special Tax Area by the Maximum Special Tax per Acre.
- Step 2: If the total Special Tax revenue as calculated in Step 1 for the Special Tax Area is greater than the Special Tax Liability of such Special Tax Area, reduce the Special Tax for each Parcel proportionately so that the Special Tax levy for the Fiscal Year is equal to the Special Tax Liability for the Fiscal Year.

- Step 3: If the total Special Tax revenue as calculated in Step 1 is less than the Special Tax Liability of such Special Tax Area, a Special Tax shall be levied upon each Parcel assigned to the Vacant Land Category. The Special Tax for the Vacant Land Category shall be calculated as the lessor of:
 - (i) The Special Tax Liability for each Special Tax Area, less the total of funds generated for all Parcels within that Special Tax Area under Step 1 above, divided by the total Acres for all Parcels assigned to the "Vacant Land Category" within that Special Tax Area.

OR.

(ii) the Maximum Special Tax rate for Parcels within that Special Tax Area.

However, in the event it is determined that the Special Tax Liability for Special Tax Area A includes delinquent Special Taxes from Parcels in the Vacant Land Category from the prior Fiscal Year, the City shall determine the amount of such delinquent Special Taxes that arose from such Parcels and identify the owner(s). The amount of delinquent Special Taxes, if any, that arose from each owner shall first be divided by the total Acres owned by such owner(s), and collected from the respective owner with the remaining portion of the Special Tax Liability not related to delinquent Special Taxes to be collected from Parcels in the Vacant Land Category according to the procedure set forth in the preceding paragraph.

Step 4: The total Special Tax for each Parcel shall be the sum of the Special Taxes for each Special Tax Area in which a Parcel is located.
